WORK EXPERIENCE

Frontend Engineer   JUNE 2021 – Present (3Yr, 3M)
SaaSquatch (Acquired by impact.com)   Remote
- Develop and maintain React components for the web app portal, leveraging HTML, CSS, and TypeScript to create high quality user interfaces.
- Implement StencilJS web components for an open-source customer-facing component library, enhancing modularity and reusability across projects.
- Collaborate with product management and design teams to optimize user experience (UX) by translating requirements into functional and visually appealing features.
- Write and maintain stories and Cucumber specs to ensure high code quality and reliable functionality through comprehensive testing.
- Act as the dedicated **CSS specialist**, working directly with customers to customize and align referral widget themes with their brand standards.
- Contribute as one of three developers in building a demo site from scratch, now utilized daily by account executives to effectively showcase and sell the product to prospective clients.
- Contributed to our UI component library by refactoring components to use Vue 3, improving performance and compatibility with modern Vue.js standards.
- Utilize **strong communication skills**, honed from a background in sales, to effectively collaborate with cross-functional teams and directly interact with customers to understand their needs and provide tailored solutions.

Finance Manager   JULY 2019 – MAR 2020 (9 MO)
AutoCanada   Victoria, BC, Canada
- Managed finance operations six days a week, ensuring efficient processing and client satisfaction.
- Generated sales leads through cold calling internet inquiries, successfully increasing sales traffic across Vancouver Island.
- Utilized HubSpot daily to manage leads, track sales activities, and streamline communications, enhancing overall efficiency and effectiveness in sales processes.
- Established and maintained strong relationships with lenders, negotiating and closing deals to consistently meet monthly sales targets.
- Traveled extensively across Vancouver Island to source vehicles from various dealerships, facilitating their sale to customers.

Door To Door Fundraiser   JAN 2018 – JUNE 2018 (6MO)
Samsara Marketing   Victoria, BC, Canada
- Conducted **door-to-door** fundraising five days a week, consistently achieving targets despite challenging working & weather conditions.
- Successfully secured long-term monthly donation commitments from numerous customers for various charitable organizations.
- Trained and mentored new team members, providing guidance and support to help them excel in their roles.

PROJECTS

Fight Insights - Next.js Web Application
- Developed a dynamic MMA news portal using **Next.js**, focusing on server-side rendering for SEO optimization and fast page loads.
- Integrated a **headless CMS** using **WordPress** to manage and deliver dynamic content, providing an efficient content management experience while leveraging the flexibility of a decoupled front-end.
- Integrated **Vercel** for seamless deployment and continuous integration, ensuring a smooth development-to-production pipeline.
- Leveraged **React** for building reusable UI components, enhancing user interaction and overall experience.
- Managed global state and theming using **Context API** and custom hooks.
- Designed responsive layouts with **CSS Modules** to ensure cross-device compatibility.
